COMPANY PROFILE

COMPANY MISSION

To be a world-class provider of high quality IT-related services, products and solutions in all fields of life, best and based in East Africa.

COMPANY VISION

To be recognised as a world-class provider of quality IT-related services, products and solutions in all fields of life.

COMPANY BACKGROUND

Buzen Technologies is a fully registered and licensed software and I.T. solutions development company under the laws of the Republic of Uganda and operating in the Republic of Uganda.

Buzen Technologies has a commitment to building trust between our team and clients above all else. This focus has allowed us to build great relationships and even better projects and solutions for the years we have been in existence.

Buzen Technologies was birthed by its founders in 2013 under the guidance and stewardship of professional and competent lecturers and professors at Makerere University in August 2013.

Buzen Technologies was ultimately incorporated in 2015 and has remained true to its core values and principles above which is TRUST.

Over the years, Buzen Technologies has gained ground as one of the leading software solutions providers in Uganda. The company has not only developed in its understanding of the ever changing technological world and how fastly adapt but also refined its processes to deliver high quality and standard software solutions.

PROJECTS

UMEME MOBILE APPLICATION

This is the official UMEME limited mobile application for the general public. The application runs on Android, iOS, Windows mobile and Windows Metro (Universal apps) operating systems. The application also has a corresponding web application back-end which is only accessed on-site.

Android: <https://play.google.com/store/apps/details?id=com.umemeapp.ug>

iOS: <https://itunes.apple.com/us/app/umeme-mobile/id1091640268?mt=8>

Windows: <https://www.microsoft.com/en-gb/p/umeme-mobile/9nblggh4r8mb>

AUTOMATED INCIDENT MANAGEMENT SOLUTION (AIMS)

This is an official UMEME emergency response team application used to solve electricity related incidences in real-time. Access to this application is limited to Umeme staff together with its corresponding web application back-end.

DISTRICT ENGINEERING METERING SOLUTION FIELD APP (DEMS)

This is an official UMEME loss reduction and monitoring team application used to audit electricity related losses in real-time by use of data gathered using GPS and multimedia. Access to this application is limited to only Umeme staff together with its corresponding web application back-end.

3PHASE AUTOMATED METERING READING FIELD APP (AMR)

This is an official UMEME large customer (Industrial Users) mobile application used to read and audit large meters in the field in real-time. Access to this application is limited to UMEME staff together with its corresponding web application back-end.

AIRQO

AirQo is an air quality monitoring initiative that recently won a Google grant (1.2 million dollars) and is on a mission to contribute to the improvement of urban ambient air quality by providing scientific evidence and low-cost technologies to quantify and inform policy to reduce, contain and better manage air pollution and its associated health risks.

Buzen technologies partnered with AirQo to develop the frontend technologies (website, mobile applications - Android and iOS) which present the data gathered and display it to an average user in the most simple and meaningful manner.

Website: <https://airqo.net/>

iOS: <https://apps.apple.com/ug/app/airqo-monitoring-air-quality/id1337573091>

Android: <https://play.google.com/store/apps/details?id=com.buzen.contract.airqoapp>

REVENUE PROTECTION APP

This is an internal application utilised by field agents that was designed for the Liberia Electricity Corporation (the electricity utility company for Liberia). The application helps the company to carry out routine audits in order to protect against electricity theft. Access to this application is limited to LEC staff.

STOCK TRACKING AND SALES MANAGEMENT SYSTEM

This is a custom solution designed for Kaffiika Animal Feeds Limited (a distributor of animal feeds for Dutch based Royal Deheus-Koudijs) with 29 branches across Uganda. The system tracks stock from the time it is ordered to when it is delivered from overseas to the warehouse, to when it is distributed from the warehouse to the stores, then from the stores to the different branches. The system helps the head office to track the different operations taking place at the various branches in real-time.

KAFFIIKA FEEDS MOBILE APPLICATION

This is a client-facing application designed to help customers access services more conveniently. Customers can order through the app, compute how much feeds they are to feed their animals, browse products offered by Kaffiika Animal Feeds among others.

Android: <https://play.google.com/store/apps/details?id=com.buzentechnologies.contracts.kafiikafeeds>

iOS: <https://itunes.apple.com/ug/app/kaffiika-animal-feeds-ug/id1444866940?mt=8>

BUSINESS CHINESE APP

This app was developed for Verselingo Apps Limited. This is an educational app that teaches business people vocabulary, grammar and pronunciation of words and phrases that are used in the business community. The app comes with lessons and quizzes that users can partake in order to assess their level of skill.

Android: <https://play.google.com/store/apps/details?id=com.tech.buzen.businesschinese>

CINEMA UG

This app provides users with all the Cinemas in Uganda and all their details, informs the users of the movies each respective Cinema is showing and also has an added capability of booking a cinema ticket in the comfort of one's home.

This app also provides reviews and suggests movies for users to watch.

Android: <https://play.google.com/store/apps/details?id=ug.co.buzen.android.cinemaug>

MUSAWO UG

This is a mobile application that targets to be an ultimate health partner. The app can be used to order and have drugs delivered, book health related appointments, view hospitals in Uganda and their respective information, get emergency services such as ambulances, view available doctors and engage in a question and answer chat, access health news as it breaks, get first aid guide among others.

Android: <https://play.google.com/store/apps/details?id=com.mobidoc.musawo>

EUNIE'S KITCHEN APP

This is the official mobile app for Eunie's Kitchen. Eunie's Kitchen is a restaurant based in Kampala, Uganda that is slowly expanding. They specialise in making fruit juices and serving "authentic tasty" Ugandan cuisine.

This app was built with the intention of being the perfect cooking companion. One can find recipes and more interesting cooking facts, catering training for the corporate woman and the youth and inspirational books in the app.

Website: <https://euniezkitchen.com/>

Android: <https://play.google.com/store/apps/details?id=com.buzen.contract.eunieskitchen>

iOS: <https://itunes.apple.com/ug/app/eunies-kitchen/id1332560973?mt=8>

INSTANTHELPER

An online platform that connects clients to suppliers so that they may order any service instantly ranging from laundry, plumbing, sewage emptying, Events, Movers, Agriculture and so many other services.

Android: <https://play.google.com/store/apps/details?id=com.badru.instanthelperapp>

iOS: <https://apps.apple.com/ug/app/instanthelper/id1465896595>
